## Herbal Fat Burner & Energy Booster (Capsules)

If you're looking to decrease body fat and boost energy, our Herbal Fat Burner and Energy Supplement is a great addition to any hormone replacement therapy program. The dosage is two capsules twice per day; two in the morning and two in the early afternoon. Our proprietary blend will increase your metabolic rate while burning calories, melting away body fat and providing extra energy and satiety. This medication can safely be prescribed to most individuals who are free from cardiovascular disease.

**Caralluma** 250mg per capsule. Caralluma is used for its ability to suppress hunger and appetite and enhance stamina. It is believed to have an effect on the appetite control center of the brain. Clinical trials demonstrate that both appetite and waist circumference were reduced when taking caralluma for 60 days. This supplement also has anti-atherogenic properties (plaque and cholesterol reducing).

**CLA (Conjugated linoleic acid)** 850mg per capsule. CLA is a natural occurring fatty acid found in meats and dairy products, that helps people lose fat, maintain weight loss, retain lean muscle mass, and control type 2 diabetes -- the type of diabetes that is often associated with obesity. Many studies have demonstrated increased belly firmness with the use of CLA.

**Yohimbe Bark** 125mg per capsule. Yohimbe is useful for fat burning, improves impotence, improves libido and is a powerful antioxidant. Because we have included a potent dosage of yohimbe in this supplement it cannot be prescribed in patients with cardiovascular problems. Patients that have controlled high blood pressure may be prescribed this supplement based on the physician's judgment.

**Green Tea** 125mg/ml per capsule. Green tea in several studies has demonstrated a significant reduction in waist circumference, blood pressure and LDL cholesterol, while increasing metabolism and energy. It is also an antioxidant and anti-inflammatory. Green tea also contains caffeine, which appears to act synergistically with EGCG (which is in green tea) to assist metabolism.

## Herbal Fat Burner

**Our Herbal Fat Burner & Energy Booster is a unique combination of nutrients designed to help maximize weight loss, burn more fat, and give you the ultimate energy your body needs.**

*A valid prescription is required.*

**At Palm Beach Pharmaceuticals, we use only the highest grade products under strict quality controls.**
